### Camborne Town Council and the Library

Following the announcement in 2015 that Cornwall Council would be making cuts to services totalling £196m over a five year period, Camborne Library was identified to be one of those services under threat and could be closed and lost to the community.

In response, Camborne Town Council led a Consultation Initiative to seek the opinion of residents in the TR14 postcode. The questionnaire asked the thoughts of locals about whether they would support an annual increase in their Council Tax if it meant that Town Council were either able to take control of the Passmore Edwards Building and the library services or supporting the Town Council in maintaining the building for public use.

Five key questions were asked in the consultation, with the results as follows:
